Mr. Joe Schieffelin, Unit Leader
Hazardous Waste Control Program
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Gentlemen:

We are transmitting copies of the documents entitled: "Technical Memorandum 9, Human Health Risk Assessment, 903 Pad, Mound, and East Trenches Areas, Operable Unit 2, Chemicals of Concern" and "Technical Memorandum No. 10, Toxicity Assessment"; both dated August 1994. We would appreciate delivery of any comments to us by Wednesday, September 21, 1994.

This version of Technical Memorandum (TM) No. 9 is the second transmittal. The first transmittal of TM 9 was December 8, 1993, and all agency comments were received by April 6, 1994. This TM was rewritten in order to incorporate data aggregation using the Gilbert Methodology. Comments received have been incorporated into these versions. Version 2 of TM 9 does incorporate the Gilbert methodology, the Colorado Department of Public Health and Environment conservative screen, and uses approximately 100% validated data.

If you have any questions, please contact Scott Grace of my staff at 966-7199.

Sincerely,

Steven W. Slaten
